Need advice on managing a charitable donation you've received from LET?

Kensington and Chelsea Citizens Advice has a dedicated team of caseworkers to support residents affected by the Grenfell Tower fire.

The team recognises the importance of providing support to residents who have received charitable donations and can have a chat about any concerns a resident may have around receiving charitable donations such as saving plans, setting up a trust, managing money generally or any other matters.

Citizens Advice can also offer advice and support on:

- welfare benefits,
- employment,
- debt,
- consumer and education issues,

and much more.

The team is able to offer support at a variety of locations, including:

- home visits,
- the FFAC,
- the Curve,
- Rugby Portobello Trust,
- Clement James Centre,
- Midaye and Dadihiye.

It is also offering advice and support on housing issues such as housing suitability assessments, offers of temporary and permanent accommodation and how a resident might be affected by the rehousing policies.

The Citizens Advice team can be contacted in the following ways:

Phone/text/whatsapp 07588683500
